

RECOVERY ——— & ——— RESILIENCE

NYCHA'S SUPERSTORM SANDY RECOVERY PROGRAM

BARUCH HOUSES 571 FDR DRIVE GAS OUTAGE UPDATE:

ESTIMATED GAS RESTORATION DATE **OCTOBER 14, 2019**

WHAT TO KNOW

Asbestos abatement is one of the initial steps required to replace deteriorated gas risers to safely restore your gas service. Abatement of floor tile, mastic and firestopping in areas near the gas risers will require entire floors of apartments to be vacant while the work takes place as a safety precaution.

Abatement will begin in apartments on the 16th and 17th floor and work its way down. Residents will be required to leave their apartment for one day for work from 8:00 am to 5:00 pm. Residents will be notified of all apartment visits at least 48 hours in advance via robocalls and flyers in your lobbies.

A hospitality area will be arranged at 749 FDR #GD. Refreshments will be served.

If you have any questions related to this work or would like to learn more about the NYCHA's Recovery & Resilience Department please call 212.306.8532.
